CIB Sebestyén Future Leaders Award Winner 2016

Hong Kong Polytechnic University

Department of Building and Real Estate

Setting up a Virtual CIB Community for Integrated Design & Delivery Solutions (IDDS)

CIB Sebestyén Future Leaders Award awarded

The CIB Student Chapter Committee has declared a proposal submitted by CIB Student Chapter at the Hong Kong Polytechnic University – Department of Building and Real Estate the winner of the 2016 CIB Sebestyén Future Leaders Award.

The title of the winning proposed project is: Empirical Study on Integrated Design & Delivery Solutions (IDDS) by Developing a CIB Interactive Virtual Community

The project will be executed in collaboration with:

- CIB Priority Theme Group: IDDS - Integrated Design & Delivery Solutions
- UiTM CIB Student Chapter, Malaysia.

The Student Chapter

At the HK PolyU CIB Student Chapter, we believe in the organization of CIB where smart human resources are the asset, the core value and driving force in the networking community. However, only belief is not enough to let CIB grow sustainably in the long run. By riding with this mature digital age where sophisticated online platform would be employed to optimize the capacity of this CIB network globally, we plan to realize our belief through developing a CIB Interactive Virtual Community for further fostering the progressive smart growth of the CIB network effectively and efficiently. In this user-friendly communication platform, CIB industrial, academic members and student chapters exchange practical materials such as professional knowledge, industrial news, innovation and up-to-date tools would be collected, uploaded and shared mainly by the members.

The Proposal

This proposal will develop a framework and plans of action for setting up an interactive online platform of integrated solutions for CIB members and CIB Student Chapters by borrowing the concept of IDDS. The platform is internet-

action-application-based, with worldwide student chapters as the regional drivers and mediators who will motivate all the stakeholders (industrial players + commission coordinators + research students) to interact and communicate with each other on a regular basis so that possible collaboration on projects will be facilitated.

Contact Information

Principal Investigator: Ms. Suen Man Schuman Lam
President of PolyU CIB Student Chapter
PhD Candidate in Sustainable Urban Development
Tel: +852) 3400 8166 (office) / 9823 2985 (mobile)
E-mail: schuman.sm.lam@connect.polyu.hk

Co-investigator: Mr. Xiao Shell Li
Public Relations of PolyU CIB Student Chapter
PhD Student in Construction Information Technology
Tel: (852) 5537 0842
E-mail: shell.x.li@connect.polyu.hk

Information

General information about the CIB Sebestyén Award can be found in the Student Chapter section in the CIB website at http://www.cibworld.nl/site/programme/student_chapters.html
This includes an overview of past winners and the outcomes of their projects.
