TG88 – Smart Cities New Programme

Introduction

The TG88 Mandate has been extended until the middle of 2019.

Components of the Task Group's Work Programme for the period 2016-2019 are:

- analysis of current Smart City solutions and a reflection in respect of the Smart Cities Roadmap (see Realized Publications)
- development of the holistic content of good examples in different geographical, social, cultural, climatic and economic regions in the world
- consultation of international experts and stakeholders in webinars
- development and publication of a collection of global Smart City solutions based on the Smart Cities Roadmap.

The selected and analysed Smart City solutions will be published in a book that will be launched at the 2019 CIB Building Congress.

Additional Information

For further information about CIB TG88 contact the Coordinators:
