CIB First Announcement
BEYOND 2020, World Sustainable Built Environment
(WSBE) Conference
June 2020, Gothenburg, Sweden

As CIB, International Council for Research and Innovation in Building and Construction, we are very proud to announce that the next **World Sustainable Built Environment (WSBE)** conference will take place in June 2020, in Gothenburg, Sweden.

BEYOND 2020 is a global conference, and is part of a Sustainable Built Environment (SBE) conference series that began in 2000 with a global conference in Maastricht (Netherlands). Ever since, a world conference has been organised every second/third year, preceded by a series of national or regional conferences that focus on specific sustainability issues in the local context.

CIB is actively supporting BEYOND 2020 Organisational Committee to make sure that we reach our common goals. The mission of the conference is to link the global building sector to the UN Sustainable Development Goals and to define its role towards the achievement of 2030 objectives, with a focus on the built environment, by setting up a roadmap of actions that will guide the whole sector during the years between 2020 and 2030, and thus 'beyond' 2020.

The conference will be held by Chalmers University of Technology and RISE Research Institutes of Sweden, with the support of Johanneberg Science Park and Gothenburg City.

BEYOND 2020, as well as the SBE conference series, aims at being THE global meeting platform for quality discussions on sustainable built environment where world-class exchanges with leading experts will take place.

We invite you to get an overview of the world conference and to join our discussions, which are now open on the web and social media.

BEYOND 2020 has indeed launched its website <https://beyond2020.se/> and activated its social platforms on [LinkedIn](#), [Facebook](#) and [Twitter](#).

BEYOND 2020 video (where Holger Wallbaum, Kristina Mjörnell and Mats Bergh explain our mission): [Youtube video](#).
