CIB Co-Sponsored Conference Call for Abstracts
SBE 2019 Cardiff, Wales
Policy of Practice

On 24 and 25 September 2019 the Cardiff University and Cynnal Cymru will host the Sustainable Built Environment Conference.

The aim of this event is to bring together climate and energy researchers, built environment professionals, policy experts and government officials to focus on the transition of energy and low carbon policies into practice. The conference topics will allow delegates to increase their knowledge and skills related to climate change policies and actions, building design, renovation and retrofit issues and the performance of buildings and materials.

The 2019 SBE Conference in Cardiff will take place in a city centre location over 2 days on the 24th and 25th September 2019.

The conference will include a series of key note speaker presentations, break-out sessions, workshops, a climate change round table debate and limited number of 'on location' visits demonstrating best practice.

Call for Abstracts

Papers will be invited on the following topics:

• Climate change and the built environment
• Resource efficiency at urban and building scale
• Innovation in materials, products and systems
• Zero carbon buildings
• Building energy retrofits
• Methods, tools and certification
• Costs and benefits
• Training and education
• Policies, regulations and standards

Roundtable session on climate change issues in the built environment sector in Wales: current status, trends, possible actions, barriers to action in key sectors and how to overcome these, within the period 2020-23.
