

September 2018

**CIB World Building Congress 2019 – Constructing Smart Cities
Deadline for Abstract Submission
30 September, 2018
17-21 June, 2019, Hong Kong**

The CIB World Building Congress 2019 will take place over 17-21 June 2019 at the Hong Kong Polytechnic University, with the University's Department of Building and Real Estate (BRE) as joint organiser.

Guided by the theme 'Constructing Smart Cities', the triennial, five-day summit will explore the latest research into eight sub-themes:

Smart Utilities and Facilities Management;
Smart Governance, Policy and Economy;
Smart Environment;
Smart Service;
Smart Buildings and Infrastructure;
Smart Transportation and Mobility;
Smart People and Living;
Smart Planning, Design and Construction.

If your work and expertise offer insight into any of the above areas, we would encourage you to submit your abstract through the congress official website [here](#).

Deadline to submit is 30 September 2018!

Meanwhile, registration to attend the congress as a guest is already open. Register NOW [here](#).

Why not extend your stay in Hong Kong?

Explore Global Flavours – Hong Kong is globally renowned as a "foodie capital", offering the chance to sample an incredible array of cuisines from across the world. Come and enjoy authentic Chinese, Vietnamese, Japanese, Korean, Indian, Mediterranean and more... you name it, and you shall have it.

The Peak Tram Ride

Hong Kong is world famous for its sky-rocketing cityscape, an iconic sight best viewed from across the legendary Victoria Harbour – or from up on The Peak, best reached from Downtown HK via the historic red tram which has been running since 1888.

Theme Parks & Attractions

Hong Kong is home to two of the most-visited theme parks in Asia – Ocean Park and Disneyland. Sporting a mixture of roller coasters, Ferris wheels, aquariums, zoos and thrills and spills galore, both parks offer a carefree escape from the trials of city life.

Discover the Outlying Islands

Far too few visitors realise that Hong Kong's dynamic urban centre is surrounded by dozens of outlying islands, many easily accessible by regular ferry services, or even MTR. Islands such as Cheung Chau, Lamma and Lantau offer authentic traditional experiences to visitors – from climbing up one of the world's largest Buddha statue to exploring ancient fishing villages which represent the rich history and often overlooked heritage of Hong Kong.

About the CIB World Building Congress

The CIB World Building Congress is a triennial world-class event where corporate leaders, public policymakers, and prominent professionals from around the world share views and experience on issues facing the industry.

Led by the theme 'Constructing Smart Cities', the five-day, 2019 Congress will provide a platform to explore smart city development and its role in society.

Speakers will deliver keynote presentations and case studies, and lead roundtable discussions to reveal the latest smart building, construction and infrastructure trends, practices and developments.

Join us at the World Building Congress 2019!
