

January 2019

FREE CIB Conference Proceedings
**6th International Smart & Sustainable Built Environments
(SASBE) Conference**
4-7 December, 2018, Sydney, Australia

We announce the publishing of the Conference Proceedings that is related to the SASBE Conference that has been held on 4-7 December 2018 in Sydney, Australia.

In this Proceedings you will find all the papers that have been presented during the conference. It gives you an overview over the most recent research into Smart and Sustainable Built Environments, at the scale of individual buildings and cities alike.

Selections of the submitted papers will be published in a book, published by Springer, and two special issues of the SASBE journal. Hence, not only during the conference the research was presented but also afterwards this research will find its way to the academic channels as appropriate.

SASBE 2018 SYDNEY focused on sustainable planning, urban design and architecture for tomorrows cities. Smart cities, or cities that are developed with help of data driven design approaches.

Topics

Topics covered during the conference are, among others:

- Resilience
- Disaster
- Indigenous Knowledge
- Smart City Design
- Green
- Circular
- Governance and Policy
- Buildings
- Education

The Proceedings are available for free and downloadable on the CIB Website [here](#) and will also be available via ICONDA in the near future.

More information on the SASBE 2018 Conference is to be found [here](#).
