**NEW CIB Co-Sponsored Conference Book of Abstracts
SBE Retrofit Europe Conference
5-6 November, 2018, Eindhoven, Netherlands**

RETROFIT EUROPE!

INNOVATION MEETS MARKET
SBE19 CONFERENCE

5—6 NOVEMBER 2018 – TU/e, EINDHOVEN (NL)

We want to announce the publishing of the Conference Book of Abstracts that is related to the SBE Conference – Retrofit Europe, that has been held on 5-6 November 2018 in Eindhoven, Netherlands.

The SBE Conference series is considered as the pre-eminent international conference on sustainable building and construction, promoted by the international organizations IISBE, CIB, UNEP-SBCI and FIDIC.

The SBE19 NL conference title was 'Retrofit Europe', and the main theme was about: 'Retrofitting 250 million homes to 0-energy performance housing in Europe'.

The conference was 2 days and field excursions on day 3. The conference started and ended with round table debates on 'How to get 250 million houses performing net zero energy, within CO2 budgets available under the 2-degree scenario'. In plenary, you had the opportunity to discuss and learn more about different retrofit concepts and application in several climate zones.

Solutions were explored in detail, with a choice of break-out sessions (based on paper selection), workshop sessions (e.g. sharing EU research results, sharing industry experiences, sharing project experiences etc) and 'on location' parallel sessions on practical implementation issues (i.e. with focus on retrofit with prefab panels, industrial production and social acceptance).

There were also sessions on new research proposals and innovation-pilots, in search of partners, based on accepted abstracts (papers selection).

The Book of Abstracts are available for free and downloadable via [this link](#) and will also be available via ICONDA and the SBE website in the near future.

SBE Conference Series

This Conference is part of the SBE Series of 2018-2020. More information of this series is to be found [here](#).
