CIB New Issue Encouraged Journal Proceedings of the Institution of Civil Engineers – Management, Procurement and Law

Volume 172, Issue 2, April 2019

ICE Publishing has published a new Issue of the CIB Encouraged Journal Management, Procurement and Law.

Editorial

In October 2018 the Institution of Civil Engineers (ICE) co-hosted the Global Engineering Congress (GEC), a gathering of over 3000 built environment professionals from around the world. The theme of the congress was the mobilisation of the global engineering community to meet the Sustainable Development Goals (SDGs) laid out by the UN in Transforming Our World: the 2030 Agenda for Sustainable Development (UN, 2015).

By my reckoning the papers in this issue contribute to knowledge advancement in SDGs 6 (water and sanitation), 9 (resilient infrastructure), 11 (safe, resilient and sustainable settlements) and 16 (effective, accountable institutions).

What if we all resolved to adopt the SDGs as a measure to ensure the ongoing efficacy of our professional practice? What might our collective effort achieve?
