Universidad Católica de Temuco, Chile is delighted to announce the upcoming SBE19 Temuco conference titled "Sustainable Built: Urban planning, global problems, local policies", which will be held at the University’s facilities from the 16th to the 18th of October 2019.

**Topics**

The conference topics are divided in the following categories. Therefore, we expect to receive contributions in the different topics described below:

- Climate Change and the built environment
- Cultural Sustainability
- Public Spaces and Life Quality/Case studies
- A Sustainable Approach to Landscape and Infrastructure
- Public Policies Towards Sustainability
- Circular Economy and Resource Management
- Environmentally Efficient Building Materials and Products/Case studies
- Renewable Energies and Clean Energy / Energy Qualification and Certification /Case studies
- Education for Sustainable Development

The purpose of this event is to bring together environment, sustainable built environment, urban planning, infrastructure and climate change experts, professionals, and entrepreneurs, consultants, and providers, and academics, and students, as well as experts in local adaptation planning.

The main aim of the conference is to allow participants to increase their knowledge and skills on sustainable built environment, construction and building problems, and contribute to local development in associated subjects, with special emphasis on reducing climate change effects.
